

- Ever wondered if there is more to life?
- Do you really know what the Christian faith is?
- Have you ever had chance to discuss and debate matters to do with faith without feeling pressured, judged or preached at?

Alpha is a **free course** designed to provide a safe space for you to discuss the big questions of life and better understand the Christian faith. It has been created to emphasise the essentials that all Christian denominations agree on. These days the media creates an often negative and inaccurate view on what Christianity is. Why don't you come and explore the true basics of our faith and decide for yourself? Alpha on-line makes it even easier – you can explore from the comfort of your own home on Zoom!

Let's break this down.

Definition: Alpha
noun

Alpha is a chance to explore life and the Christian faith in a friendly, open and informal environment.
